PayAnywhere Smart Point Of Sale.

Introducing the all-in-one countertop device that combines the convenience of a fully equipped point of sale with the advanced functionality of the PayAnywhere software.

The ideal solution for merchants looking for a stylish, space-saving, and cost-effective POS for their countertops, the PayAnywhere Smart POS combines:

The convenience of a merchant-facing 8" HD display touchscreen and a 4.3" customer-facing touchscreen.

Built-in receipt printer, front and back cameras for easy barcode scanning, and a port for a cash drawer.

An EMV chip card, NFC contactless, and magstripe reader.

4G and Wi-Fi connectivity.

The PayAnywhere Smart POS comes with access to PayAnywhere Inside, the online portal with the data and tools to power your business.

⊘ Accept online payments and create recurring invoices.

⊘ Manage employee permissions, customers, and chargebacks.

⊘ View, compare, and export real-time data for sales, customers, employees, and products.

Accept payments. Run your business.
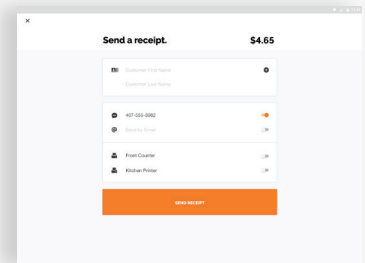

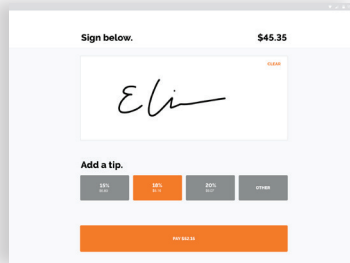

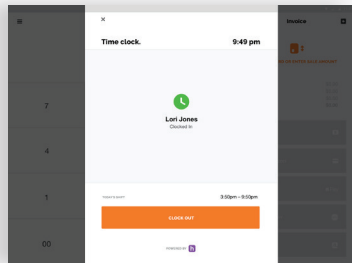

Terminal theme

For quicker transactions, use a simple interface that works like a traditional credit card terminal.

Retail theme

Create a custom item library with categories, modifiers, multiple prices, and stock management.

Tickets & tabs

Open a ticket, run a card to start a tab, and close it out when the customer is ready. Perfect for bars and restaurants.

Time clock

We've teamed up with Homebase to offer a free time clock and employee scheduling functionality.

Sign & tip

Let customers sign via a handy customer-facing touchscreen. They can even add a tip by choosing from preset options or entering in a custom amount.

Built-in receipt printer

Allows for printable, emailable, and textable receipts.
